    - Court and Legal Service Management System: managing court and legal services
  - Led technical mentorship, agile sprint planning, and architectural design strategies
  - Mobile app development using React native and Expo
  - **Stack:** PHP, React, JQuery, MongoDB, MySQL, TypeScript, React Native, Expo
- 

## Signature Projects

### Heirmpire | Mobile-First Land Investment Platform

Lead Developer, 2024

- Pioneered full-stack development of mobile and web applications
- Implemented secure authentication
- Integrated Firebase Cloud Messaging and Expo Push Notifications
- Developed robust role-based access control system
- **Stack:** React Native, Expo, NextJS, MongoDB, NodeJS
- **App:** [Google Play Store](#)

## **Autoloads Transport | Logistics Platform**

Lead Developer, ongoing

- Designed scalable MSSQL database schemas
- Developed comprehensive RESTful APIs using Laravel
- Implemented secure CI/CD pipelines with GitHub Actions

## **Billkit | Bill Payment Solution ([Link](#))**

Lead Developer, 2024 - 2025

- Created backend infrastructure using NodeJS, ExpressJS, and MongoDB
- Implemented SMTP server
- Implemented JWT authentication and Pug email templating
- Established automated CI/CD deployment pipelines

## **Framer Code Overrides & Custom Solutions ([Link](#))**

- Developed advanced bike configurator with dynamic configuration
  - Integrated Stripe payment system
  - **Stack:** Framer code-override, TypeScript, ReactJS
- 

## **Technical Expertise**

**Languages, libraries and frameworks:** TypeScript, NodeJS, ExpressJS, NestJS, Laravel, PHP, JavaScript, React, React Native, Expo, NextJS, JQuery, TailwindCSS

**Databases:** MongoDB, MySQL, PostgreSQL, MSSQL

**DevOps & Tools:** Docker, Git, GitHub Actions, GitLab CI/CD

---

## **Education**

### **Higher National Diploma, Electrical and Electronics Engineering**

Kenule Beeson Saro-Wiwa Polytechnic | 2017 – 2019

### **National Diploma, Electrical and Electronics Engineering**

Rivers State College of Arts and Science | 2013 – 2015

---

## **What Sets Me Apart**

I lead with clarity and code with purpose.

Simplifying complexity is my default.

I take full ownership of problems, from architecture to deployment.

I'm not just writing code.

I'm building systems that solve real business challenges.
